PROFILE SUMMARY

Second-year Software Engineering student at COMSATS University Islamabad, Lahore Campus, with hands-on experience building production-ready React applications powered by real-world APIs. Skilled in frontend development using React.js, Tailwind CSS, and Framer Motion, and actively expanding into full-stack MERN development. Seeking a frontend or MERN stack internship to contribute to real-world projects and accelerate professional growth.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), Tailwind CSS, Framer Motion, Responsive Design

Programming: C++, Java, Python, SQL

Tools & Platforms: Git, GitHub, VS Code, Vercel, Netlify, Supabase

EDUCATION

COMSATS University Islamabad, Lahore Campus

Sep 2024 – Present

BS Software Engineering (4th Semester)

CGPA: 3.35/4.0

- **Relevant Coursework:** Object-Oriented Programming, Data Structures & Algorithms, Database Management Systems, Artificial Intelligence, Software Engineering

PROJECTS

Crypto Metrics Explorer | React.js, CoinGecko API

- Built a real-time cryptocurrency dashboard displaying live prices, market caps, and trends for 100+ coins.
- Implemented dynamic data fetching with async API calls and efficient state management using React Hooks.
- Designed a fully responsive interface with clean data visualization for an intuitive user experience.

Pixels App – Image Explorer | JavaScript, Unsplash API

- Built a dynamic photo gallery with infinite scrolling and Masonry layout, batching 20 images per scroll.
- Integrated the Unsplash REST API for real-time image fetching with live search functionality.

Weather App | JavaScript, OpenWeather API

- Developed a weather application using Async/Await to fetch and display real-time data for any city worldwide.
- Implemented robust API error handling and edge-case management, ensuring a reliable and responsive UI.

Amazon & Netflix Frontend Clones | HTML, CSS, JavaScript

- Replicated UI/UX focusing on pixel-accurate layouts and full responsiveness across devices.
- Strengthened understanding of component-based design patterns and modern CSS layout techniques.

CERTIFICATIONS

- **Introduction to Front-End Development** – Meta via Coursera (2025)
- **Principles of UX/UI Design** – Meta via Coursera (2025)
- **AI For Everyone** – DeepLearning.AI via Coursera (2025)

EXTRA-CURRICULAR ACTIVITIES

International Model United Nations (MUN) – Delegate

Jan 2025 – Mar 2025

- Participated in global debates on social and economic issues, sharpening research and analytical thinking.
- Collaborated with international peers in team-based discussions, strengthening communication and diplomacy.
